

Credit Score Goals

Feature Spotlight

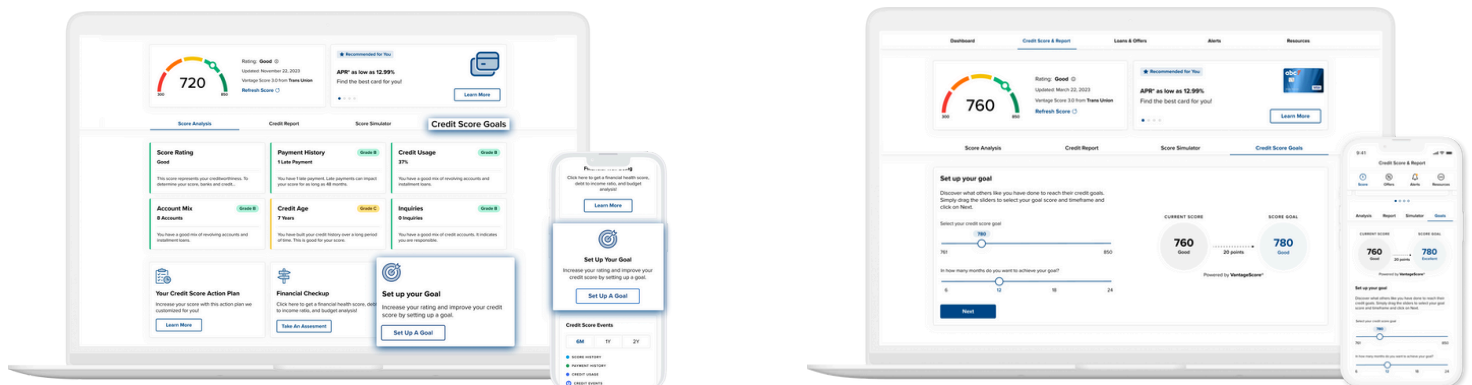

savvymoney®

Credit Score Goals

Credit Score Goals is a feature within Credit Score that is designed to help users achieve their credit goals. This tool allows users to **select** their credit score goal and the **timeframe** in which they would like to achieve their goal.

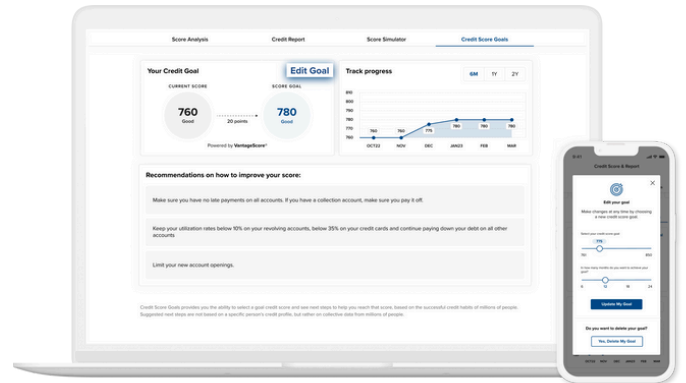

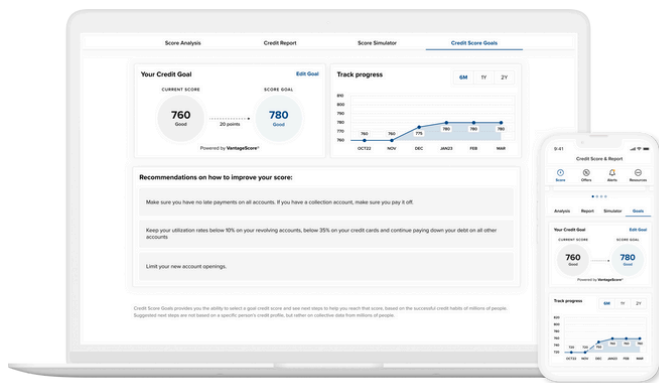

After setting their goal, users can **track** their progress, **edit** their goal, **receive recommendations** on improving their score, and **receive updates** on reaching **25%**, **50%**, **75%** and **100%** of their goal.

CREDIT SCORE GOALS USER EXPERIENCE

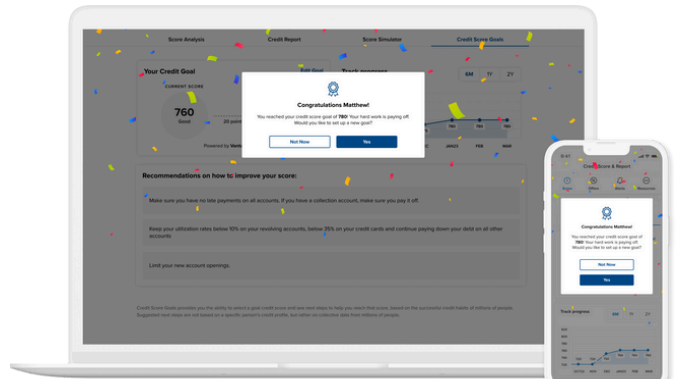

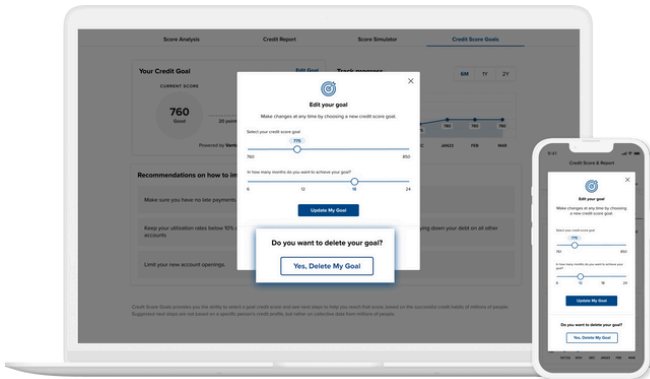

1 Credit Score Goals is located both below the **Score Analysis Cards** and under the **“Credit Score Goals”** tab on the Credit Score Dashboard.

2 Clicking **“Set Up A Goal”** on the Dashboard directs users to the “Set up your goal” page. Here, users can **choose their credit score goal** and the **timeframe for achieving it**.

3 After setting their credit score goal, users are directed to the goals page. Here, they can **view** their current score and score goal, **track** their progress toward reaching the goal, and receive **recommendations** for improving their score.

4 Users can **modify their goal** by utilizing the **“Edit Goal”** button located within the **“Your Credit Goal”** section. This allows users to adjust their score goal and the timeframe for achieving it.

5 Users can **delete** their credit score goal by selecting the **“Edit Goal”** button within the **“Your Credit Goal”** section. Below that, they can choose **“Yes, Delete My Goal”**.

6 Upon **achieving** their Credit Score Goal, users will **receive an email** notification confirming their success. In the Credit Score solution, they'll be greeted with a **congratulatory message** and given the opportunity to set up a new goal if they wish.

SavvyMoney Resources for Credit Goals
